PROFESSIONAL SUMMARY

IT student completing a Bachelor of Information Technology (Computer Forensics, CGPA 3.85) at UNIRAZAK, with hands-on experience in IT helpdesk support, building-automation systems and field technical support, plus a CompTIA Security+ certification. Built BocorCheck, an OSINT-based personal-data-exposure monitoring system, as a final year project. Currently undergoing industrial training to build on infrastructure, networking and security fundamentals.

EXPERIENCE

Building Automation (BAS) Technician May 2023 — Jun 2024
Pavilion Sdn. Bhd., Malaysia

- Monitored the HVAC system and its network of temperature sensors, controllers, and monitoring panels across a multi-tenant commercial site, diagnosing faults to minimise downtime.
- Investigated system alerts and connectivity issues, documenting root causes and resolutions to support faster troubleshooting.
- Produced system diagnostic and incident reports used by the facilities team to track recurring issues.

IT Support & Helpdesk Jan 2022 — Jan 2023
Qorva Technology Sdn. Bhd., Malaysia

- Logged, tracked, and resolved first-line hardware, software, and connectivity tickets using Zendesk, maintaining consistent system uptime.
- Configured and maintained the Sun Life app (CIMB bank's insurance application) for internal users, handling setup, updates, and troubleshooting.
- Ran preventive maintenance checks across end-user devices to reduce recurring fault tickets.
- Diagnosed basic network connectivity issues (LAN/WAN, TCP/IP) to maintain stable operations.

Technical Field Support Aug 2017 — May 2018
Antah Schindler Sdn. Bhd., Malaysia

- Installed and upgraded elevator system software, controllers, and diagnostic tools across multiple sites.
- Analysed monitoring logs and performance data to detect irregularities before they caused system failure.
- Carried out routine inspections to maintain operational stability and safety compliance standards.

Technician, Audio Visual & Electrical/Mechanical/Civil Nov 2019 — Sep 2021
Shardu Enterprise Sdn. Bhd. (Hotel Maluri), Malaysia

- Delivered reliable event support by setting up and operating PA and audio-visual systems for hotel functions and events.
- Maintained uninterrupted hotel operations by handling electrical, mechanical, and civil maintenance tasks across the building.

Building Maintenance Technician Jun 2018 — Jul 2019
Operasi Jitu Sdn. Bhd. (MRT Taman Midah), Malaysia

- Ensured building system reliability by attending to and following up with subcontractors on fire alarm, parking machine, and electrical systems.
- Reduced unresolved defects by monitoring CCTV, computers, servers, and parking sensors and reporting faults for prompt resolution.

Technician ACMV — Mar 2014 — Jul 2016
Extechpro (M) Sdn. Bhd., KLCC Petronas Tower 3

- Checked and recorded heat exchanger and temperature readings each morning, and led daily tools-box safety briefings.
- Maintained chiller water pump pressure, split units, fan coil units (FCU), cassette units, and air-handling units (AHU), including VSD and BCS-integrated VAV systems.

EDUCATION

Universiti Tun Abdul Razak (UNIRAZAK) — 2024 — Present
Bachelor of Information Technology (Computer Forensics), Hons — Long-Distance Learning
CGPA: 3.85

Sijil Akademi Binaan Malaysia (ACMV) — 2014 — 2016
Level 1–3

CERTIFICATIONS

CompTIA Security+ (SY0-701) — CompTIA (2025)

Social Engineering & Phishing in the Age of AI (2025)

Java — LearnQuest (2025)

UC Hardware and Software (2024)

Cybersecurity Awareness (2024)

APEL T6 (2024)

TECHNICAL SKILLS

IT Support & Infrastructure: Hardware & Software Troubleshooting, Helpdesk Ticketing (Zendesk), Virtualization (VMware, VirtualBox), Preventive Maintenance, Windows, Ubuntu & Kali Linux

Networking: LAN/WAN Diagnostics, TCP/IP, Building Automation Systems (BAS)

Security & Forensics: CompTIA Security+, OSINT, Have I Been Pwned API, Computer Forensics Fundamentals, Wireshark & Nmap, Autopsy, FTK Imager & Volatility, ALEAPP / iLEAPP, Sherlock, SpiderFoot & Maltego

Development: Python, Flask, MySQL, Ollama / Local LLMs, Agile SDLC, Basic Java

LANGUAGES

Bahasa Malaysia (Native) • English (Professional Writing, Conversational Speaking)

SELECTED PROJECTS

BocorCheck — Final year project
Python, Flask, MySQL, Ollama, OSINT, HIBP API, Telegram Bot API • Private repository

EMV Smart Card Security Analysis — Educational simulation
Python, Tkinter, MySQL, mysql-connector-python, matplotlib • github.com/Fildxza/EMV-Smart-Card-Security-Analysis

FidxDFT — Digital Forensics Toolkit — v1 toolkit
Python, SQLite parsing, PCAP, GitHub Actions • github.com/Fildxza/fidxDFT-DigitalForensicsTool-
