## EXPERIENCE

### Building Automation (BAS) Technician

May 2023 — Jun 2024

Pavilion Sdn. Bhd.

- Monitored the HVAC system and its network of temperature sensors, controllers, and monitoring panels across a multi-tenant commercial site, diagnosing faults to minimise downtime.
- Investigated system alerts and connectivity issues, documenting root causes and resolutions to support faster troubleshooting.
- Produced system diagnostic and incident reports used by the facilities team to track recurring issues.

### IT Support & Helpdesk

Jan 2022 — Jan 2023

Qorva Technology Sdn. Bhd.

- Logged, tracked, and resolved first-line hardware, software, and connectivity tickets using Zendesk, maintaining consistent system uptime.
- Configured and maintained the Sun Life app (CIMB bank's insurance application) for internal users, handling setup, updates, and troubleshooting.
- Ran preventive maintenance checks across end-user devices to reduce recurring fault tickets.
- Diagnosed basic network connectivity issues (LAN/WAN, TCP/IP) to maintain stable operations.

### Technical Field Support

Aug 2017 — Aug 2018

Antah Schindler Sdn. Bhd.

- Installed and upgraded elevator system software, controllers, and diagnostic tools across multiple sites.
- Analysed monitoring logs and performance data to detect irregularities before they caused system failure.
- Carried out routine inspections to maintain operational stability and safety compliance standards.

## EDUCATION

## Universiti Tun Abdul Razak (UNIRAZAK)

Bachelor of Information Technology (Computer Forensics), Hons — Long-Distance Learning

2024 — Present

## Sijil Akademi Binaan Malaysia (ACMV)

2014 — 2016

Level 1–3

### TECHNICAL SKILLS

**IT Support & Infrastructure:** Hardware & Software Troubleshooting, Helpdesk Ticketing (Zendesk), Virtualization, Preventive Maintenance

**Networking:** LAN/WAN Diagnostics, TCP/IP, Building Automation Systems (BAS)

**Security & Forensics:** CompTIA Security+, OSINT, Have I Been Pwned API, Computer Forensics Fundamentals

**Development:** Python, Flask, MySQL, Ollama / Local LLMs, Agile SDLC
